

Osler L. Hutson

11 October St, Skopje, Macedonia
ohutson@agentchain.io | +38978373873

Professional Summary

Experienced business leader with a strong foundation in economics, fintech, and insurtech, including over 4 years founding and leading AgentChain, a blockchain-based compliance platform. Skilled in identifying business pain points, formalizing requirements, bridging stakeholder needs with technical teams, and managing complex IT projects from ideation to MVP launch. Seeking to leverage expertise in logistics coordination, route optimization, and client relationship management as a Dispatcher, where I can efficiently manage transportation operations, ensure timely deliveries, and enhance operational workflows in a dynamic environment.

Core Competencies

- **System Analysis & Documentation:** Experienced in identifying pain points, formalizing requirements (e.g., terms of reference, process descriptions), creating diagrams (BPMN, UML, DFD equivalents), decomposing tasks, value assessment, and prioritization for complex IT projects.
- **Technical Collaboration:** Proven ability to speak developers' language, manage microservice architectures, and ensure timely delivery in agile environments. Familiar with blockchain, AI automation, and API integrations.
- **Communication & Adaptability:** Clear, systematic thinking for problem-solving and written/verbal explanations. A quick learner in new domains like insurtech, fintech, and content production.
- **Tools Proficiency:** Microsoft Office (Excel for data flows/analysis, PowerPoint for pitch decks/diagrams), and remote collaboration tools (e.g., Zoom, asynchronous platforms).
- **Multilingual:** Fluent in English, German, and Spanish; conversational Russian.

Professional Experience

FinqUp Technology OOD (Skopje, North Macedonia – Remote) August 2024 – August 2025

Head of Business Development

- Led business development for an AI-powered automation platform targeting financial institutions, insurers, and tourism sectors in Europe and North America, identifying client pain points and translating them into formalized requirements.
- Collaborated with the CEO and co-founder to align features with user needs, prioritize changes based on value assessments, and prepare detailed proposals, resulting in €40K+ in pilot revenue and key partnerships.
- Managed multilingual stakeholder interactions (English, German, Spanish) to clarify goals and decompose tasks for developers, achieving a 30% increase in qualified leads.
- Utilized Microsoft Excel and PowerPoint for data flows, interaction diagrams, and requirements documentation while supporting a pre-seed funding of €50K.

AgentChain (Sarasota, Florida – Remote)

January 2021 – Present

Founder & CEO

- Founded and led the development of a blockchain-powered platform to revolutionize compliance management for the U.S. insurance industry's 1.58 million agents.
- Interacted with stakeholders to identify pain points in record-keeping and onboarding; formalized these into business requirements, process descriptions, and prioritized roadmaps for the MVP launch in May 2024.
- Oversaw a cross-functional team of 6 in agile development, decomposing complex tasks into precise specifications for smart contracts, API integrations, and UI/UX refinements to deliver an MVP with 100 active daily users.
- Prepared formal documents such as executive summaries and pitch decks, assessed change value, and raised initial capital to support scalable growth in a microservice architecture environment.
- Drove customer acquisition strategies based on industry trends, projecting 75,000 users over 24 months.

US Health Advisors (Sarasota, Florida)

March 2019 – April 2022

Senior Agent

- Served as a licensed health, accident, and life insurance agent across Florida and 15+ states, identifying client pain points to customize solutions, resulting in over \$800,000 in converted business.
- Conducted outbound sales, clarified customer goals, and documented processes to streamline policy onboarding and reduce administrative inefficiencies.
- Left on good terms due to personal family reasons.

Texas Key Recycle (Dallas, TX)

August 2018 – December 2019

Partner/Owner

- Developed long-term business relationships with major dealerships (e.g., AutoNation, LKQ), doubling revenue through value-driven propositions and process optimizations.
- Managed independent sales operations, utilizing Excel for data analysis and PowerPoint for presentations to formalize account needs.
- Left due to unsustainable operations from partner issues.

FTL Transportation (Chicago, IL)

July 2017 – July 2019

Account Executive (Broker)

- Successfully transitioned and onboarded key clients from previous employer, fostering long-term partnerships by understanding their unique shipping needs, negotiating competitive rates, and ensuring seamless integration into new brokerage operations.
- Maintained established shipping lanes for clients, analyzing traffic patterns, carrier availability, and market conditions to optimize efficiency, reduce costs, and minimize delays while adapting to seasonal or demand fluctuations.

BMM Logistics (Chicago, IL)

November 2015 – July 2017

Account Executive (Broker)

- Successfully transitioned and onboarded key clients from previous employer, fostering long-term partnerships by understanding their unique shipping needs, negotiating competitive rates, and ensuring seamless integration into new brokerage operations.
- Maintained established shipping lanes for clients, analyzing traffic patterns, carrier availability, and market conditions to optimize efficiency, reduce costs, and minimize delays

while adapting to seasonal or demand fluctuations.

NEXGEN TRAVEL DISTRIBUTION (Munich, Germany)

August 2008 – May 2015

Account Executive

- Advanced from data management to an executive role, acting as liaison between clients and programmers to clarify requirements and facilitate web demonstrations.
- Negotiated revenue-sharing contracts worldwide, documented business processes, and prioritized features for online platform launches.

Southwest Parking Company (Naples/Sarasota, FL)

December 2010 – February 2013

Account Management and Supervisor

- Collaborated with general managers on event scheduling and staffing, identifying operational inefficiencies and formalizing processes to enhance service delivery.
- Provided hands-on customer service as a valet attendant, building skills in quick problem-solving and stakeholder communication.

Education

European University (Munich, Germany)

August 2006 – May 2009

Basic International Business Curriculum

- Coursework: Accounting, Statistics, Management Principles, European Law, Marketing, Calculus, Microsoft Office.
- Note: Credits non-transferable due to accreditation; pursuing ongoing professional development in system analysis and product management.

Cardinal Mooney High School (Sarasota, FL)

Graduated 2005
